

TITOKI NURSERY LTD Est. 1983
"Leading Guardian of Conservation" - (NZPCN)

2024 REVEGETATION PLANT CATALOGUE

Titoki Nursery is celebrating 40 years of supplying and specialising in revegetation work throughout Tasman, Nelson and beyond. We grow plants for conservation, river stabilisation/ erosion protection, farm shelter and land development. Other sites include Parks and Reserves, dunes and coastlines, water treatment plants and wetlands.

We're thrilled our new growing system has produced such terrific result both in the nursery and field over the last three seasons. Planters love the ease, and the root ball development which leads to quick establishment. "Elle's" are produced by our PlantPaper machine, which was the first of its kind in NZ, and the first used for native revegetation plants.

Making its own biodegradable pot out of "paper" made from corn sugars, this system was developed in Denmark and is used extensively worldwide for forestry, bedding plants, and food production. As well as being a brilliant growing system, they're quick to plant out, and massively reduce our plastic usage.

We offer advice, and can help with revegetation planning for your project, whether from bare land; for landowners who wish to restore important remaining forest remnants; or farmers who fence off erosion prone or unproductive farmland, & create shelter using native species.

Beyond revegetation, we also grow less common species that make up important parts of our local flora often suited to forest remnants and covenants. Plants can become threatened through isolation, habitat degradation, or browsing, and we work closely with Environmental Trusts, Councils, and the Department of Conservation.

Seed is collected throughout the top of the South, and beyond for specific projects. All of our seed sources are fully recorded. Species not listed in the current year's catalogue can be grown to order with one to two years notice required to source and propagate seed, and any wish lists are welcomed!

Titoki Nursery is situated in Waimea West near Brightwater.

Titoki Nursery is open by appointment by appointment
8.30am – 4.30 pm Monday to Friday.

Terms

Priority is given, and prices apply to plant orders of 20 per species minimum. We will endeavour to meet your requirements for lesser orders or if you're filling gaps from previous years, however we cannot break-up orders beyond multiples of four.

Potted stock or plants marked as being in 'limited supply' (ltd), minimum requirements do not apply.

We stock & find the following useful (prices exclude gst, & subject to change)

Bamboo stakes (12-14mm x 750mm) - Thick grade. Guards require 2/plant.
Bale of 200 / \$50.00
50 cents each for part bundles.

Tree guards offer protection from animal pests & greatly aid release spraying.

CardGuard combo - 300 - 350mm high cardboard guard with 2 x 750mm bamboo canes. \$1.80 each. Sold in multiples of 100 only.

CardGuard - 300 - 350mm high lightweight cardboard guard. 50/pack, \$1.40 each (\$70/pack).

EmGuard - Strong cardboard guard 350mm high. POA.

Coreflute guards - 450mm high, re-usable plastic.
\$1.50 each, packs of 50.

Coir weed-mats - Biodegradable weed suppression 250 x 250mm.
70c each. 175 per carton.

Fert tabs - (5g controlled release) - for nutrient starved sites especially.
\$150/Carton (1500 tabs).
20 cents each/part carton.

Wire baskets & Elle trays: If we lend you our RT frames at planting time please ensure these are returned by the end of September and that you notify a staff member. Any unreturned frames will be charged \$20 per frame.

ALL PLANTS MUST BE UPLIFTED BY 30 SEPTEMBER (unless by prior arrangement). Holding charges will apply beyond.
